

Olumide Olajuwon Oderinde

Backend Developer

Phone: +234 806 061 7790 Email: [o3cloudng](mailto:o3cloudng@gmail.com) | [Linkedin](#) | [Github](#) | [Portfolio](#)

Summary Statement

Experienced developer with multiple years of expertise in full stack development, REST APIs, Unit testing, security, proficient in containerization using Docker, adept at server configuration, cloud infrastructure setup, continuous integration and continuous deployment (CI/CD) pipelines. Skilled in AWS and cloud best practices, with a strong focus on security and DevOps principles in agile teams.

Work Experience

Freelance Backend Developer & DevOps Engineer

June 2021– Till Date

- Led the development of end-to-end web applications, from initial concept to deployment, resulting in 30% increase in user engagement.
- Implemented Software Composition Analysis (SCA) and Static Application Security Testing (SAST) processes, enhancing application security and reducing vulnerabilities.
- Collaborated with cross-functional teams to gather requirements, provide technical insights, and optimize user experiences.
- Utilized modern web technologies, including ReactJS, & NextJS to create responsive and user-friendly interfaces.
- Developed RESTful APIs (Django, Flask, Laravel, GoFibre) to facilitate seamless communication between front-end and back-end systems.
- Contributed to Continuous Integration and Continuous Deployment (CI/CD) pipelines to AWS cloud infrastructure using tools such as Jenkins and GitHub Actions.

Website Development and Business Process Automations

FirstAstoria Communication Technologies Ltd.

March 2010–September 2021

- Developed dynamic and interactive front-end interfaces, incorporating user-centric design principles for enhanced user experiences.
- Designed and maintained back-end services, including databases, APIs, and server-side logic.
- Improved application performance through code optimization and database query tuning.
- Implemented version control using Git, enabling streamlined collaboration and code management.

Education

Ladoke Akintola University of Technologies, Oyo State, Nigeria

Skills

- Back-end Technologies (Python, PHP, NodeJs)
- Web Application Security
- AWS Infrastructure Management
- Infrastructure as Code (Terraform, Ansible, CloudFormation)
- CI/CD (Jenkins, GitHub Actions, Code Pipeline)
- Version Control (Git)
- Frameworks (Django, Laravel, GoFibre)
- Docker
- Redis and RabbitMQ
- Front-end Frameworks (e.g., React, Next.js)
- RESTful APIs
- Problem-Solving and Troubleshooting
