

Olumide Oderinde

Data Analyst / Engineer

+234 806 061 7790 | o3cloudng@gmail.com | <https://linkedin.com/in/olumide-oderinde>

EXECUTIVE SUMMARY:

Detail-oriented and analytical Junior Data Analyst with expertise in SQL, Python, Power BI, and database management. Adept at transforming raw data into actionable insights, supporting decision-making, and delivering impactful visualizations. Seeking to leverage skills to contribute to data-driven decision-making in a dynamic organization.

KEY SKILLS

- Programming & Analysis: SQL, Python (Pandas, NumPy, Matplotlib, Seaborn)
- Data Visualization: Power BI, Tableau (optional if skilled), Matplotlib
- Database Management: MySQL, PostgreSQL, MongoDB
- Other Tools: Excel (Advanced), Jupyter Notebook, Git

PROJECTS:

Sales Performance Dashboard (Power BI)

Designed an interactive dashboard to track regional sales performance and identify growth opportunities.

Incorporated DAX functions to calculate metrics like YoY growth and market share.

Customer Churn Prediction (Python)

Analyzed a dataset of 50,000 customers to predict churn using logistic regression and decision trees.

Visualized trends and findings using Matplotlib and Seaborn.

SQL Database Management System

Created and optimized a relational database for an e-commerce platform, improving query efficiency.

Developed complex queries to generate custom reports and provide actionable insights.

EXPERIENCE:

O3Cloud IT Solutions – SCRUM Master | Software Engineer

Jan 2020 – Till date

EDUCATION & CERTIFICATIONS

- Bachelor of Technology - Ladoke Akintola University of Technology (2007)
- Professional Scrum Master - PSM I (In View)

TECHNICAL SKILLS

- Database: MySQL, PostgreSQL, SQL Server, Redis, RabbitMQ
- Python & Python Libraries, R
- Machine Learning - Sci-kit learn, Tensorflow
- Opencv
- Power BI, MS Excel
- Server: AWS, Digital ocean, Linux, Windows
- Containerization (Docker / Podman)
- Data Engineering
- AWS Cloud Computer & Administration

ADDITIONAL INFORMATION

- Fluent in English and Yoruba Languages
- Strong written and verbal communication skills
- Excellent problem-solving, conflict resolution and analytical skills
- Data Analytics
- Database Systems
- Statistical Methods
- Programming for Data Science
- Utilized SQL to extract, clean, and analyze data from complex databases, ensuring data integrity.
- Created interactive dashboards in Power BI to visualize KPIs and enhance business decision-making.
- Automated data processing tasks using Python, reducing processing time by 20%.
- Collaborated with cross-functional teams to identify and resolve data inconsistencies.
- Conducted detailed data analysis projects including sales forecasting and customer segmentation.
- Designed and delivered custom Power BI dashboards tailored to client-specific needs.
- Built Python scripts to analyze and visualize datasets, providing actionable insights.

Certifications

Python for Data Scientist - Udemy

Key Strengths

Strong problem-solving skills and ability to manage large datasets.

Collaborative team player with effective communication skills.

Detail-oriented, ensuring data accuracy and integrity.
